

ERGONOMICS

MULTI4POWER

500 KG WELDING WORKSTATIONS

Ergonomic work table for welding work

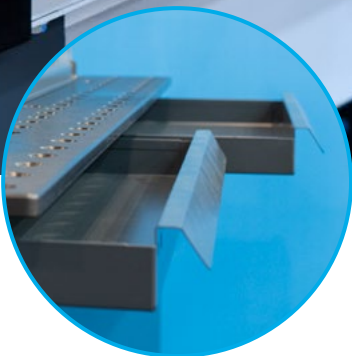

HEIGHT-ADJUSTABLE WELDING TABLES

OTTOKIND welding tables are based on our classic multi4easy workstation. When dealing with large and heavy workpieces, load-bearing capacity and optimised, flexible equipment are essential. Thanks to ergonomic configuration options and electric linear motors, safety remains a top priority.

The foundation: the multi4easy worktable with a load capacity of up to 500 kg.

- Welding plate/attachment with system perforation
- Height adjustment with memory function
- Adapter frame with electrical decoupling between the welding plate and table frame
- Cleaning drawers
- Side panelling with square perforations
- Mobile functionality with swivel castors
- Synchronised connection of multiple FLEX tables
- Option to integrate a welding robot

Cleaning drawers

Mobile with swivel castors

Storage option on the side wall

WELDING TABLES FROM OTTOKIND

Workstations Designed for Ergonomic Working

Stationary Worktable
